(54) Title: BEVERAGE CAN WITH LAMINATE ON TOP

(57) Abstract: In a preferred embodiment a protective laminate for a beverage can, including: at least one layer disposed across substantially an entire upper surface of a top of the beverage can; and the at least one layer having therein at least one score or die-cut line adapted to facilitate manual removal of the at least a portion of the at least one layer before a person consumes contents of the beverage can. A method of manufacturing the protective laminate is also provided, with the laminate being applied to the metal stock before the can components are formed and assembled.
